Prospects for 2026:

With regard to renewals of members, we were sadly notified during the year that **one** had died. **Four** members have informed us they wished to resign at the end of 2025. **Two** institutions have informed us that they intend not to renew.

As of 18th January 2026, **198** members of all types have renewed their memberships (not including the honorary and life members), as have **34** institutional subscribers.

So far in **2026** we have **one** new subscription.
